REPUBLICAN TICKET.

FOR PRESIDENT,
BENJAMIN HARRISON.
OF INDIANA.

FOR VICE PRESIDENT,
LEVI P. MORTON.
OF NEW YORK.

Rock County Republican Convention.

A republican County Convention is hereby called to meet at the court house in the city of Janesville, at two o'clock p. m., on Wednesday, August 15th, 1888, for the following purposes:

To elect thirteen delegates to represent Rock county in the First Congressional District Convention to be held at Clinton on August 29th, to nominate a candidate for member of congress.

To elect thirteen delegates to represent Rock county in the Republican State Convention to be held in Milwaukee on August 22d, to nominate candidates for state offices.

And to transact any other business which may properly come before the convention.

The several towns and wards will be entitled to delegates as follows:

Beloit, Bradford, Franklin, city of Janesville, two (2) each; Avon, Lebanon, Janesville, John C. Smith, Magnolia, Rock, Westwood, each three (3) each; Center, Fulton, Lima, Newark, Pleasant, Peter, Unity, City of Edgerton, second and fourth wards of Beloit, third ward city of Janesville, four (4) each; Spring Valley, third ward city of Beloit, second ward city of Janesville, five (5) each; fourth ward city of Janesville, six (6) Clinton, and first ward city of Janesville, seven (7) each; Milton eight (8) Union nine (9).

By Order of the County Committee.
W. T. VANCE,
R. J. BURGE,
M. V. PRATT,
S. C. CANN,
STEVEN WILSON,
Republican County Committee.

THE PLATFORM AND TEMPERANCE.

On the 28th instant General George O. Gandy addressed a letter to the Evening Wisconsin on the high license question in which we find two paragraphs that merit special attention. He says:

While thanking you for the personal compliment in the above, I cannot concur in the theory that advocating high license is distasteful to the republican party of Wisconsin. It may possibly be to timid republicans in Milwaukee, whose lungs are filled with the smoke from the mammoth breweries and in whose ears the din of a thousand or more rum shops is a constant reminder of a "error" that must be "conquered"; but I have too much confidence in the republicans of this state to think they are afraid to meet this issue.

It is possible you are right about my nomination being "only a remote contingency." The selection or rejection of any man is immaterial to the party, but whether I am successful or not, permit me to assure you that the convention cannot dodge this question, and no matter who is nominated, a resolution will be offered in that convention which no committee will be allowed to "pocket." This is no age for "timorous." What the republicans of Wisconsin ask—what they demand—is that principle shall be considered, as well as "policy."

General Gandy is right in saying that this is no age for timorous. It is an age for down-right earnestness and fearless courage in dealing with the question of the liquor traffic. But the general does not go far enough. High license of itself is worth but little except it be high enough to drive the saloons out of existence, and then it would not fully answer the demands of the times. What the people want and what the county of Rock and the state of Wisconsin need for the present, is county option coupled with the highest possible license.

The republican state convention which is to be held in Milwaukee on the 22d, has an important duty to perform. The platform should declare for high license, and with it county option. The republicans can't afford to falter on this question. The republicans can't afford to make a retreat before the democratic party and the saloon power. The platform should boldly stand for the most advanced temperance methods, because the anti-saloon question is one which is "eternally right."

Then, again, the republican platform should declare in favor of submitting the prohibition amendment to the people. There is no reason why the voters of this state should not be permitted to record their judgment on the prohibition question. The people are ready for the issue. They want the highest possible license and the county option law enacted by the coming legislature; and then they want a beginning made in regard to submitting the constitutional prohibition question. If the republican convention will be courageous and fair enough to declare for this kind of temperance reform, it will present the popular sentiment in this state.

If the republican convention desires to represent and express the best sentiment of the day on the temperance question, and make hundreds of votes for the republican ticket, let it stand boldly against the saloon.

THE PARTIES AND TRUSTS.

A fact which should always be remembered: "There is not a single monopoly or trust in this country that is opposing the democratic party. Bear this fact in mind." And it may be added that all the trusts are opposing the republican ticket.

The democratic papers are very fond of frequently charging the republicans with being in favor of monopolies and trusts. They do this to divert the attention of the country from the trusts that are distributing fodder among the democratic campaign leaders. There are some facts in connection with the business of trusted monopolies that should not be forgotten. The Standard oil men are supporting Cleveland. The Sugar trust is a democratic institution. The Cotton-Seed oil trust is chiefly southern and democratic. Jay Gould is announced as for Cleveland. And so on, and so forth, not omitting the big whisky trust. The Mills bill, which taxes the poor man's rice 100 per cent, his sugar 75 per cent, gives Harzemeyer's Sugar trust \$300,000 a

year profit and opens the door to wholesale moonshine free whisky, which would double the government out of \$70,000 yearly revenue, is also democratic.

If the democrats want to stop on a hornet's nest, they can do no better thing to bring about such an event, than to investigate the trust question.

OPENING THE CAMPAIGN.

The republican campaign in this state will be opened next Monday at Baraboo, with Odgen H. Fethers and J. V. Quarles will address a republican meeting. The republican state central committee has announced meetings to be addressed by these gentlemen, as follows:

Baraboo.....August 15.
Black River Falls.....August 16.
Eau Claire.....August 17.
Chippewa Falls.....August 18.
Ashton.....August 19.
Hilbert.....August 20.

Among the foremost orators in this state are J. V. Quarles and Odgen H. Fethers. They not only have given all national questions a thorough study, but their accomplishments as public speakers, make them widely popular and attract large assemblies wherever and whenever they speak. They will do the republican cause splendid service by their eloquent and clear exposition of the questions that are so important and courageous in this campaign.

There comes from Viroqua, in this state, a report that the young women of that town have formed a republican club, and have adopted a constitution, the preamble of which is as follows: "We, the young women of Viroqua, believing that the concern of all good government is the virtue and sobriety of the people and the purity of their homes; and believing that the republican party cordially sympathizes with all wise and well directed efforts for the promotion of temperance and morality, do, in order to form an effective organization by which we may give to the republican party our heartfelt sympathy and earnest support, agree to this constitution for the Young Women's Republican Club of Viroqua." Thus indicates that the young men in that part of the state are republicans. This preamble is as pure as anything moral or political can be, and yet being taken from the republican platform, is denounced by the third party prohibitionists, as being in league with the liquor interests.

Our old friend, Mr. D. G. Cheever, of Clinton, favors the nomination of Mr. Board. In a note to the Sentinel he says:

I have the pleasure of personal acquaintance with all the candidates for governor you mention in your column of Aug. 2d, and I heartily endorse all. Our old friend does not lack for good man for any and all public trust, and all things considered, I believe Mr. Board would at this time be our best choice from the list you give. His ability and integrity are beyond question. Like our honored Rush he has a mind of his own and firmness to see the laws executed and respected. No man in our state has done more to foster, encourage and build up our agricultural interests, while at the same time trade, commerce and all manufacturing and industrial interests have no better friend. In war and peace his prospects and example have ever been for the right. He is a republican from top to toe. The farmers want him, the mechanics and merchants endorse him, the laboring man is pleased with him. Let Board be governor.

A political straw from Indians: There is one democratic chieftain in Indiana who deeply regrets that circumstances over which he has no control will prevent him from taking an active part in the campaign. His name is Simeon Coy and for the sake of his family we refrain from giving his postoffice address." Evidently this man Coy, who has been active in democratic politics, belongs to the 137 criminals whom Cleveland has put in office. The penitentiary is a very good place for him not only during a campaign, but at other times.

The Hon. Lewis E. Allou, of Buffalo, an uncle of President Cleveland and president of the Buffalo Tippecanoe club, writes to Mr. J. B. McArthur, of Brookfield, Ind.: "Here in Buffalo, where Cleveland lived for thirty years, there will be a strong majority against him as there was against him in 1888. His free trade views have disgusted the industrial workers of the country, and many men who voted for him in 1888 will vote against him in 1888."

A scientific exchange speaks of a microscopic lens made in Sweden powerful enough to distinguish the 204,700,000th part of an inch. Thus does the match of invention keep pace grandly with the requirements of science. This would be a good instrument to use in trying to find the conscience of the democratic party, and the consistency of the third party.

While the lamp holds out to burn, the vilest democrat may return. Mr. O. E. Morris a prominent farmer near Windsor, Illinois, who has voted the democratic ticket for thirty years, says he, with four sons who have been democrats, will vote for Harrison and Morton. These make twenty-seven democrats in the immediate neighborhood who are now good republicans.

From the Racine Journal: "The Hon. E. O. McFetridge is a square, upright and cleanly man. He is deserving of any honors the republican party can bestow, and is assuredly a very strong man in the state." And not only that, but in executive ability he has no superior in the state. With the exception of him, he is no doubt the strongest man in Wisconsin.

The Syracuse, New York, Herald, which supported Cleveland in 1888, has declared for Harrison, and protection. If this wholesale desertion from the democracy keeps on much longer there won't be enough democrats left in New York

to bury the democratic carcass next November.

Mr. Cleveland's progressive civil service reform policy has worked so successfully in Vermont that the last republican officeholder in the presidential post-office has just stepped down and out, and these are now all filled by democrats.

The boys who are camping up the river with Wilt Jackson as master of ceremonies, treated about forty of their friends to an eight-mile ride on the river, and on the return they stopped at Pope's Springs, and danced to the delightful music for several hours.

The boys proved to be royal entertainers, as all their guests agreed that a little more warm weather was all that was not pro-

vided for their comfort.

—Chief Engineer Blank has caused

some very good and convenient changes to be made in the east and west side entrances. The fire steamers being

no longer required for service at fires

have been cleaned up and placed at one

side of their respective houses, out of

the way, and the hose carriages placed in

the position on the floor formerly occu-

pied by the engines. This makes it much

handier for the men to hitch up and get

the carriages out to a fire alarm, besides

more convenient on general principles.

Water, Water, Water.

Now is the time to subscribe for water.

For the Water Co. will lay out a few more

services from the main to the fence line

free of charge. Soon a charge of twelve

dollars will be made for what the com-

pany is now doing free. The water pro-

vents sickness, saves labor, keeps the

grass green, lays the dust and cools the

atmosphere. Office of every afternoon and from seven to eight o'clock in

the evening.
